# BlackRidge Technology to Demonstrate its Cyber Defense Solutions at TechNet Cyber 2019, AFCEA's Largest Cyber Conference for the U.S. Department of Defense

**BlackRidge joins partners B&D Consulting and Network Runners on show floor**

RENO, Nev., May 7, 2019 /PRNewswire/ --[BlackRidge Technology International, Inc.](#) (OTCQB: BRTI), a leading provider of next-generation cyber defense solutions, will demonstrate its leading cyber defense solutions and exhibit at [TechNet Cyber 2019](#) in Baltimore, Maryland, on May 14-16. BlackRidge Technology will have a presence in B&D Consulting's booth (#1925) and Network Runners' booth (#2146).

TechNet Cyber is the largest Defense Information Systems Agency (DISA)-focused show hosted by AFCEA, a professional association addressing communications-related technologies and their impact on international security. The conference brings together military, industry and academia to discuss and plan how to leverage innovative technology, advance cybersecurity, and build new relationships between the military and industry sectors.

Founded in 2010 to commercialize patented network security technologies originally developed to cloak battlefield assets for the Department of Defense, BlackRidge Technology has a long-standing relationship with the U.S. federal government. The company's Transport Access Control products were [certified for addition](#) to the Department of Defense Information Network Approved Products List in June 2018, accelerating the company's ability to deliver innovative cyber defense solutions to the federal sector.

BlackRidge will demonstrate its products and value to the DOD cybersecurity mission including how its solutions integrate with and extend Cisco Identity Services Engine (ISE) functionality to IoT and cloud environments to stop cyberattacks and insider threats by allowing only identified and authorized users and IoT devices to connect to cloud applications. As a Cisco Preferred Solution Partner, BlackRidge's certified products are listed in the Cisco Solution Marketplace, the premier online exchange for networking solutions.

The company will exhibit with partners – [B&D Consulting](#) and its affiliate SYNRYG Corp., and [Network Runners](#) – at the show. B&D Consulting is an SBA 8(a) Certified, Small Disadvantaged Business, VetsBiz, Certified Veteran-Owned Small Business and State of Maryland Certified Minority Enterprise providing innovative cybersecurity,

intelligence, integrated services, engineering, cloud computing, mobility and unified communication solutions that help government organizations meet their mission objectives.

Network Runners, a woman-owned business, has a General Services Administration (GSA) IT Schedule 70 and recently received approval from GSA to include BlackRidge's products and pricing on the schedule. This provides federal agencies as well as state and local government agencies with an efficient means to obtain BlackRidge products and services without a lengthy competitive procurement process.

"BlackRidge is uniquely positioned in the government sector to lead cybersecurity initiatives," said John Walsh, BlackRidge chief strategy and technology officer. "We are participating on several projects that are changing the cybersecurity landscape in the obfuscation and securing of data, networks, and the cloud infrastructure to which they connect. This is a significant step towards enabling secure commercial data services in Government, Critical Infrastructure, and the Industrial Internet of Things. We are looking forward to continuing to share our expertise in collaboration with our partners at TechNet Cyber."

### **About BlackRidge Technology**

BlackRidge Technology enables our customers and partners to deliver more secure and resilient business services in today's rapidly evolving cyber threat environments. The BlackRidge adaptive cyber defense solution authenticates identity before allowing network connections in order to proactively isolate cloud services, protect servers and IoT devices, and segment networks. Our patented technology authenticates user or device identity and enforces security policy on the first packet of a network session. This new level of real-time protection blocks or redirects unidentified and unauthorized traffic to stop port scanning, cyberattacks and unauthorized access. BlackRidge was founded in 2010 to commercialize its military-grade and patented network security technologies. For more information, visit [www.blackridge.us](http://www.blackridge.us).

### **Forward-Looking Statements**

Statements made in this release include forward-looking statements within the meaning of federal securities laws. Forward-looking statements can be identified by the use of words such as "may," "will," "plan," "should," "expect," "anticipate," "estimate," "continue," or comparable terminology. While management has based any forward-looking statements included in this release on its current expectations, the information on which such expectations were based may change. Forward-looking statements involve inherent risks and uncertainties which could cause actual results to differ materially from those in the forward-looking statements, as a result of various factors including those risks and uncertainties described in the Risk Factors and in Management's Discussion and Analysis of Financial Condition and Results of Operations sections of our Annual Reports on Form 10-K, as may be supplemented or amended by our Quarterly Report on Form 10-Q and other public filings with the Securities and Exchange Commission (the "SEC"), which can be found on the SEC's website at [www.sec.gov](http://www.sec.gov). We urge you to consider those risks and uncertainties in evaluating our forward-looking statements. We caution readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. Except as otherwise required by the federal securities laws, we disclaim any obligation or undertaking to publicly release any updates or revisions to any forward-looking statement contained herein (or elsewhere) to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.
